|   | Page 1 of 1 |            |

### 1.0 PURPOSE

To provide guidance for the issuance and use of the United States Army Garrison (USAG) Excavation/Utility Location Permit (Exhibit A).

### 2.0 GENERAL

The USAG Excavation/Utility Location Permit is the sole means of tracking and monitoring the utility locating service performed by the USAG outside electric shop. This form is available electronically at G: PME Forms/USAG FORMS. The electric shop is the point of contact for this utility locating service. They will contact the other appropriate shops, such as pipe and phone, etc., and coordinate with those shops to participate as required. This service is usually provided on Tuesdays and Thursdays, weather permitting.

### 3.0 PROCEDURE

- (a) Upon identifying a need for locating services for A&E design considerations or construction operations, the USAG Excavation/Utility Location Permit shall be filled out.
- (b) The permit shall be faxed to the foreman of the USAG outside electric shop at fax number 301-619-2356.
- (c) Upon receiving the permit, the foreman will contact the point of contact as stated on the form to arrange a time for the locating service.
- (d) All appropriate parties should be present when the locating service is being performed so that a clear understanding is reached by all parties as it pertains to the amount of and location of all disturbed earth.
- (e) A copy of the completed form shall be placed in the project file.
